

Hoopsisters Classic Bucket Bag!

Instructor: Deverie Bongard

When: TBD

The Bucket Bag has four sections on the outside of the bag, each section has a large zippered pocket. The bag is fully lined, and can include optional pockets on the inside. Finished Size: 12" tall x 9 1/2" at the base

Two different looks –

- The Sashiko Bucket Bag: 8 different Sashiko Quilting patterns. A different one on each section. Looks beautiful in classic blues with white stitching.
- The Quilted Bucket Bag: Cross Hatch quilting combined with straight line quilting for a modern look. Looks great combined with solids and prints.

The 8 blocks are designed to be stitched out quickly on your embroidery machine and then assembled with a conventional sewing machine. We will be modifying the original Hoopsisters pattern slightly for ease of assembly.

If you would like to make the bag but do not have an embroidery machine let us know as we have a couple different options for creating the 8 basic blocks without an embroidery machine
