

Snowflake

Instructor: Catherine Gentile

Date of LEO: Sat, January 29th, 2022

Learn the “magic” method of making this amazing 20” quilt block with just 1 ½” x 3” rectangles. We will be using Quiltsmart fusible interfacing to piece the stars. Make one little 20” star or purchase the different interfacing kits to make a 38” or a 58” Lone Star. Mind blowing to get such a beautiful block so easily. Spend Saturday in class and stay through the Sunday Open Sew to complete your block.

Sew and Sew has a partial bolt of 20” Quiltsmart Little Lone Star interfacing for purchase by the single panel.

58” Lone Star Quiltsmart kit:

38” Lone Star Quiltsmart kit:

<https://www.quiltsmart.com/shop/c/p/38-Lone-Star-Pack-x37082307.htm>

Supply list of Notions:

- One panel of Quiltsmart interfacing in your choice of sizes
- Sewing machine in good working order with foot control and power cord
- Single needle throat plate if available
- #11 or #12 quilting or universal machine needle
- Rotary cutter and 12” x 6” ruler and mat
- Thread for construction –
 - I prefer Aurifil #50 because it is thin and makes less bulk in the seams
- Thread snips

Supply list of fabrics for 20" Snowflake Star:

- 6" x WOF or fat quarter of 6 coordinating fabrics for star
 - Depending upon placement, you may use only a tiny piece
- 1/3 yard of background fabric

The Snowflake uses a row of background fabric in the star for a lacey look. The classic version of the Lone Star uses another row of fabric instead. This row is the largest circle of points and needs to be bold.

- **If you choose to make a classic Lone Star instead of the Snowflake version, you will need 7 fabrics @ 6" x WOF and a fat quarter of background.
